

Summer Math Program

Have fun, Develop Confidence with Mathematics,
Learn "Algebraic Thinking," Learn to Love Math

Monson High School

August 2 - 19

This is an exciting program for incoming freshmen and sophomores that will help you get the skills you need for success in Math

Participating students receive a free \$25 gift certificate to the Eastfield Mall that includes movies!

In the summer class you will:

- Learn to use math clues in forensics science and crime scene investigations.
- Increase your math with new online tools that you can use at school and at home.
- Learn about what it takes to be a successful learner, even when assignments are hard or you are taking challenging courses

Become part of a learning community that can support you in the school year.

- Learn mathematics that will give you a jump start in Algebra

Who can participate?

Any incoming 9th or 10th grade student who's scored below Proficient on math MCAS

• What if I don't really like math?

The summer school activities are not typical, this won't feel like the math you were used to, and teach problem solving strategies that apply to many other subjects. In addition, you will almost always work in pairs or groups, which makes math fun!

Learning to work as part of a team can lead to success!

• **Is this just a math class?**

Though you will spend some time each day involved in mathematical problem solving, this is not a typical math class. Some students say that it doesn't feel like a math class at all. Instead, this program helps you learn variety of skills for any class.

Summer Math Application

Please return this completed form to Dr. Kay Scheidler,
Curriculum Director, Monson Schools, Quarry Hill School, 43
Margaret Street. Or e-mail scheidlerk@monsonschoools.com
Phone: 413-267-4150 ext 1003
