

## ATTENTION PARENTS AND STUDENTS

**During the creation of the 2010/2011 school department budget, all music in the Monson Public Schools was eliminated. This means that you/your child will have no music opportunities during the school day.**

**The Monson Music Boosters are working to develop an after school instrumental and choral program for students in grades 3 – 12. The purpose of this communication is to gauge interest in this type of program. By returning this form you are not committing or signing up for any program. The Monson Music Boosters are hoping that there is enough interest in music to begin the rebuilding of the Monson Music Program.**

**The Monson Music Boosters are committed to providing students with instrumental and choral lessons and ensemble performances, and possibly other festivals. The program will be fee based, however at this time we do not have a feel for the cost of this program. Cost of participation will likely be based upon the number of students participating. The more students who participate the less the cost will be for each student.**

**Please return this form to your child's teacher prior to the end of the school year or mail to Monson Music Boosters, P.O. Box 553, Monson, MA 01057. By returning this form you are only indicating an interest in a program, you are not signing up for a program. You will be contacted as more information becomes available.**
