

Summer Math Calendar 2025

Have a guardian initial after each activity is completed.

INCOMING GRADE 3 SUMMER MATH CALENDAR

Name: _____

	<u>Monday</u>	<u>Tuesday</u>	<u>Wednesday</u>	<u>Thursday</u>	<u>Friday</u>
<p>June 23-27 <u>Time:</u></p> <p>Practice reading an analog clock this week</p>	<p>What time is shown on the clock?</p> 	<p>What time is shown on the clock?</p> 	<p>How many hours are in one day?</p> <p>How many minutes are in one hour?</p>	<p>Sally went to bed 30 minutes after 8. What time did she go to bed? (use a.m. or p.m.)</p> <p>_____ : _____</p>	<p>Jamie got home from the movies at half past 8. Show this time on the clock.</p> 
<p>June 30-July 4 <u>Skip Counting</u></p>  <p>This is an array.</p> <p>Practice skip counting by 2's, 5's, and 10's</p>	<p>Use this table to shade in a 3x4 array</p> 	<p>Write the numbers that you would say when you skip count by twos. Start at 12 and stop at 36.</p>	<p>Use this array to write a multiplication and addition equation.</p>  <p>____ + ____ + ____ = ____ ____ x ____ = ____</p>	<p>Write the numbers that you would say when you skip count by fives. Start at 25 and stop at 75.</p>	<p>Tim counts his friends' fingers <u>by fives</u>. He counts 8 hands. How many numbers does he say?</p>
<p>July 7-11 <u>Addition & Subtraction</u></p>	<p>Solve: $9 + 38 + 25 =$</p>	<p>Find the sum of the ages of the people living in your house.</p>	<p>Write down your house number.</p> <p>a) Add 50 to the number in your address.</p> <p>b) Is this new number <, >, or = to 75?</p>	<p>You collected 25 seashells at the beach, and your friend collected 17. How many more seashells did you collect than your friend?</p>	<p>Find the difference between 82 and 37.</p>
<p>July 14-18 <u>Money</u></p> <p>Practice adding up a handful of mixed coins.</p>	<p>Two dimes and 3 pennies are equal to how much?</p>	<p>How much is 328 cents equal to? Use a \$ and a decimal point (.) in your answer.</p>	<p>3 quarters, 2 nickels, and 1 penny is equal to how much money?</p>	<p>Sam wants to buy a toy for \$2.00.. He only has \$1.52. How much more does he need to buy the toy?</p>	<p>Nick has 3 quarters, 2 nickels, 2 dimes, and 3 pennies. How many more pennies does she need to have \$1.10?</p>

Summer Math Calendar 2025

Have a guardian initial after each activity is completed.

	<u>Monday</u>	<u>Tuesday</u>	<u>Wednesday</u>	<u>Thursday</u>	<u>Friday</u>
July 21-25 <u>Place Value</u>	Jack starts at 280 and counts by 10. What are the next 6 numbers Jack will say?	What is the <u>value</u> of the underlined digit? 4 <u>9</u>	Write three numbers that have the digit 8 in the tens place.	In the following number, circle the digit in the hundreds place and put a star above the ones' place. 837	Write each number in standard form. a) $100 + 3 + 80$ b) Two hundred three c) $60 + 300$
July 28-Aug 1 <u>Addition & Subtraction</u>	$55 + 48 = \underline{\hspace{2cm}}$	There were 24 plates in the dishwasher. After dinner, James put 9 more plates in. How many plates are in the dishwasher now?	Of the 42 peppers that are growing in the garden, 26 are ripe. How many are not ripe yet?	$85 - 36 = \underline{\hspace{2cm}}$	$35 - \underline{\hspace{1cm}} = 26$
Aug 4-8 <u>Fractions</u>	Draw two squares. Separate one into halves and the other into thirds.	Draw a circle. Divide it into thirds. Shade in two thirds.	Lilly has two sandwiches that are cut in half. Draw two different ways the sandwiches could be cut.	One whole is equal to how many fourths? 	Look at a recipe. Record three fractions you see.
Aug 11-15 <u>Addition & Subtraction</u>	$72 - 67 = \underline{\hspace{2cm}}$	Clayton had 29 water balloons and Layla had 33. How many water balloons did they have in all?	$24 + \underline{\hspace{2cm}} = 42$	$80 - 29 = \underline{\hspace{2cm}}$	$57 + \underline{\hspace{2cm}} = 81$
